# Press Release

## **The Climate Change Centre Reading (CCCRdg) will be taking part in an International Conference**

CCCRdg will be representing Climate Change activities in the Reading / Thames Valley Berkshire area at the Future of Places (FOP) forum. It is the first of three conferences leading up to Habitat III in 2016, which will have the overall aim of contributing to a New Urban Agenda designed for people and places.

**Stockholm, Sweden, June 24, 2013 - June 26, 2013:**

Climate Change Centre Reading

The speakers for The Future of Places conference can be found on the FOP web page:

<http://www.futureofplaces.com/conference-information>

The main objective of the conference is for speakers to address the future of placemaking. The conference will stretch over three days starting with an introductory day covering "Challenges, Opportunities and Ideas for the Public Realm" as well as "New Urban and Economic Perspectives on Places".

Five keynote addresses will be given on the first day followed by a panel discussion and questions from the audience. The second day will focus on what we call "Real Time Places 2.0. The third day will have a final keynote session on the theme "Back to the past future".

Throughout the three conferences in Stockholm, a document that will be written leading to a declaration on places for Habitat III conference in 2016.

**For Release 12PM (UTC) 18/06/2013**
